Critical Thinking Definition, Skills, and Examples

Cooperative Learning Strategies: Cooper (1995) argues that putting students in group learning situations is the best way to foster critical thinking. "In properly structured cooperative learning environments, students perform more of the active, critical thinking with continuous support and feedback from other students and the teacher" (p. 8).

Critical Thinking Learn The Tools

Critical thinking is the opposite of regular, everyday thinking. Moment to moment, most thinking happens automatically. When you think critically, you deliberately employ any of the above intellectual tools to reach more accurate conclusions than your brain automatically would (more on this in a bit).

Bing: Critical Thinking Learn The Tools

Finally, we learned how analyzing student thinking as exhibited in student work can be leveraged to deepen our students' critical thinking and problem-solving skills. The power of this work has been highlighted for all of us as we saw kindergarten students demonstrate an ability to formulate reasoned arguments with specific support.
